Barbara M. Hailey, Administrator
ATCC Patent Depository

PLEASE NOTE:

ATCC has revised its numbering system for patent deposits. The reason for the new numbering system is to clearly delineate cultures on deposit with ATCC for patent purposes from those authenticated by ATCC. Therefore, the ATCC acronym may not be used when citing the number in your patent application, only the assigned number. You may, however, indicate in your patent application that the culture is on deposit with ATCC as a patent deposit.

The information contained in this facsimile is intended only for the use of the individual or entity named above. If the reader of this message is not the intended recipient, you are notified that any dissemination or distribution, except to the intended recipient of this communication, is prohibited. If you have received this communication in error, please call us immediately at the telephone number listed above.

BUDAPEST TREATY ON THE INTERNATIONAL RECOGNITION OF
THE DEPOSIT OF MICROORGANISMS FOR THE PURPOSES OF PATENT PROCEDURE

INTERNATIONAL FORM

RECEIPT IN THE CASE OF AN ORIGINAL DEPOSIT ISSUED PURSUANT TO RULE 7.3
AND VIABILITY STATEMENT ISSUED PURSUANT TO RULE 10.2

To: (Name and Address of Depositor or Attorney)

Emory University
Attn: Joseph M. Kinkade, Jr.
Department of Biochemistry
Atlanta, GA 30322

Deposited on Behalf of: Emory University

Identification Reference by Depositor:

Patent Deposit Designation

Mouse hybridoma K2.F1.6

PTA-897

The deposit was accompanied by: ___ a scientific description ___ a proposed taxonomic description indicated above.

The deposit was received October 29, 1999 by this International Depository Authority and has been accepted.

AT YOUR REQUEST: ☒ We will inform you of requests for the strain for 30 years.

The strain will be made available if a patent office signatory to the Budapest Treaty certifies one's right to receive, or if a U.S. Patent is issued citing the strain, and ATCC is instructed by the United States Patent & Trademark Office or the depositor to release said strain.

If the culture should die or be destroyed during the effective term of the deposit, it shall be your responsibility to replace it with living culture of the same.

The strain will be maintained for a period of at least 30 years from date of deposit, or five years after the most recent request for a sample, whichever is longer. The United States and many other countries are signatory to the Budapest Treaty.

The viability of the culture cited above was tested November 5, 1999. On that date, the culture was viable.

International Depository Authority: American Type Culture Collection, Manassas, VA 20110-2209 USA.
